

What Is AZAEP?

The Arizona Association of Environmental Professionals provides a forum to facilitate the exchange of ideas while promoting excellence in our profession. We are a non-profit organization dedicated to our members, our parent organization, and the community.

AZAEP provides career development opportunities for a range of individuals, from university students to novice or veteran professionals, involved with environmental issues.

AZAEP Chapter Was Formed To...

...promote the goals of enhancing, maintaining and protecting the quality of life in the natural and human environment.

...create an interdisciplinary society of environmental professionals in the state of Arizona.

...encourage the efficient use of resources and improvement of the natural environment.

...provide opportunities for and encouraging the professional development and recognition of members through meetings, conferences, and other activities.

...encourage and improve communication within the environmental community including colleagues in business, government and academics.

...adhere to the NAEP Code of Ethics and to the goals of NAEP and the Chapter.

....**HAVE FUN!**

As An AZAEP Member...

The Objectives

of Environmental Professionals are to conduct their personal and professional lives and activities in an Ethical Manner.

Honesty, justice and courtesy form moral philosophy which, associated with a mutual interest among people, constitute the foundation of ethics. Environmental Professionals should recognize such a standard, not in passive observance, but as a set of dynamic principles guiding their conduct and way of life. It is their duty to practice their profession according to our Code of Ethics.

As the keystone of professional conduct is integrity, Environmental Professionals will discharge their duties with fidelity to the public, their employers, clients, and with fairness and impartiality to all. It is their duty to interest themselves in public welfare, and to be ready to apply their special knowledge for the benefit of mankind and their environment.
